Dávid Balog-Farkas

Founder and CEO, 100 Moments PL

“ Once we decided to expand to other markets it was clear to us we could no longer fulfill on our own. But we never expected it would be so easy either. Using Frisbo we've set-up operations in 3 countries in no time. Logistics are now a smooth process for us and we are able to focus on growing the business. ”

Sharad Mittal

Chief of Operations, Teracube USA

“ Frisbo was essential to our expansion from the US to the European market. They optimized our shipping and fulfillment costs across dozens of European countries, making the process seamless and efficient. The platform offers quick insights into the status of orders, shipments, and returns, allowing us to identify and resolve issues promptly, saving us a tremendous amount of time. ”
